

SwitchOn

Safety Leadership Program

Switch On is not your normal safety training programme.

Through conversation and experiential learning, you will shift your safety beliefs and behaviour. We take you on a journey from “knowing” safety to “getting” safety. Over two days you will confront your thoughts, behaviours and choices. CHOICE is the key.

Over the two days you will:

- Build your belief that you can influence safety through your actions and choices.
- Increase your awareness of hazards and near miss situations, both at work and home.
- Grow your ability to positively influence others.
- Develop the confidence and techniques to intervene if you see any unsafe acts or conditions.
- Learn how to recognise and acknowledge others for demonstrating behaviours and acting on safety concerns.
- Create a safety action plan for work and home.

For more info go to <https://actrua.com.au/switch-on-workshop-2/>

“After 30 years in oil and gas, this is the first safety workshop that has made me stop and think differently about safety; I’m so grateful.”

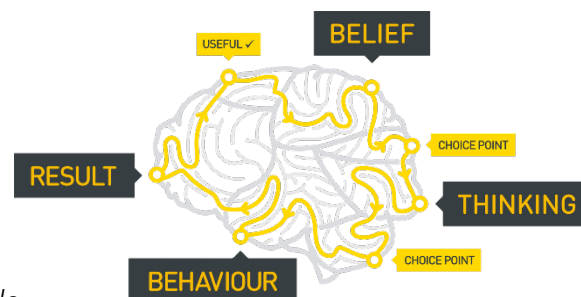

The Circle of Choice

Step up to safety.
